### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

Claims 14, 17, 31-33, 36 and 39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 14 and 17 are indefinite because claim 1 is directed to a tool per se, yet claim 17 is directed to an implant. It is not clear whether applicants' claims are directed to a combination of tool and implant or the tool alone. Claim 36 is directed to a package of implants.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 14, 17, 18, 31, 34, 35 and 39 are rejected under 35 U.S.C. 102(b) as being anticipated by Mayenburger et al (US Patent 5,843,097). Each of the limitations recited in the claims above are disclosed in Mayenburger et al. The clip is considered a medical implant that is ejected from the jaws 4.

Claims 14, 16, 31 and 33 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Green et al (US Patent 5,100,420). The clip members in Green et al are considered implants.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 15, 19, 29, 31, 32, 37 and 38 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mayenburger et al (US Patent 5,843,097). The Mayenburger et al patent discloses the size of the implant being about 10mm in diameter. It would have been Obvious to one having ordinary skill in the art to manufacture Mayenburger's device in the 1-6mm range in order to operate in smaller surgical sites. Concerning claim 32, polytetrafluoroethylene is a well-know biocompatible material. It would have been obvious at the time of applicant's invention to for Mayenburger's device of said material.
